

# Sponsorship Engineers in STSE or PEPD

**Maurel et Prom** is a French oil operator headquartered in Paris 8<sup>th</sup>. We are listed on SBF 120. We have approximately 790 employees at the Group level, with around 555 employees in Gabon. Our presence is primarily in Africa (Gabon, Tanzania, and Angola) as well as in South America (Colombia and Venezuela). Specializing in hydrocarbon exploration and production, we mainly produce crude oil in Gabon and Venezuela and gas in Colombia and Tanzania (supplying 50% of the country's gas needs). We focus on both exploration / green field development and mature field management. In Angola, we operate as a partner with the national company Sonangol. Holding a 20% stake in the company SEPLAT in Nigeria represents a financial asset for the Group.

## Job Description:

We are looking for four motivated students' engineers to be sponsored in STSE /PEPD programs to join a specialized team in Operations and project development, and Geosciences. The selected candidate will work closely with industry experts to gain practical experience and valuable technical skills in the field.

## Requirements:

- Student recently graduated from an engineering school or in the final year
- **For Operations and Project development (sponsoring):** skills in mechanical, numerical modeling, simulation, and physical sciences. Knowledge of geology would be appreciated, strong motivation to learn, proactively contribute to projects and work abroad.
- **For Geosciences:**
  - **Geologist/geophysicist position (sponsoring):** skills in seismic interpretation (horizon picking, well tie, time to depth conversion, seismic attributes analysis) and geology (structural, sedimentology, correlations, logs interpretation and petrophysical analysis, geomodelling). Knowledge of reservoir engineering would be appreciated. Knowledge of industry standard software, like Petrel, is a plus.

- **Petroleum Engineer position (sponsoring):** skills in well performance analysis, well/completion design, workovers, activation, forecasting, databases, flow assurance... Knowledge of geology and reservoir engineering would be appreciated. Ability to work effectively in a team and communicate clearly
- Strong motivation to learn and proactively contribute to projects
- Proficiency in French and English, both oral and written; Spanish would be a plus

**Working Conditions:**

Are you looking for an international and supportive environment? We offer sponsoring contracts, starting in **Sept. 2025**.

**Interested?**

Please send your CV and cover letter to the following email address: [rh@maureletprom.fr](mailto:rh@maureletprom.fr), stating "Application for sponsorship in PEPD or STSE, IFP School" **before March 31<sup>st</sup>, 2025**.
