

Foster clean and multimodal mobility using smartphone data

Symposium of the IFP School Chair on Electric, Connected, and
Autonomous Vehicle for Smart Mobility

24/11/2020, by Salah EL HAJJI

CleanMob - Clean mobility enabler (B2B)

Agenda

- 01** Context of modern mobility
- 02** Mitigation options
- 03** Vision, ambition and solutions
- 04** CleanMob under the hood
- 05** Conclusion

Context of modern mobility

Transport is the major contributor

National GHG emissions - France (2018)

CO2 emissions by source

Source : HCC report 2019

Context of modern mobility

An insufficient reduction...

National CO2 emissions evolution

Source : HCC report 2019
SNBC*: Stratégie nationale bas carbone

Imported CO2 emissions evolution

Source : HCC report 2019

Context of modern mobility
...especially in transport

CO2 emissions evolution by source 1990-2018

Source : HCC report 2019

Context of modern mobility ...especially in transport

CO2 emissions - Transport evolution

Source : HCC report 2019
SNBC*: Stratégie nationale bas carbone

Context of modern mobility

People transportation represents 60%

Transport GHG emissions - France (2018)

CO2 emissions - Transport

Source: AEE 2018

Context of modern mobility

Personal car, a habit that needs change

TEMPS PERDU DANS LES EMBOUTEILLAGES
EN PÉRIODE DE POINTE
en nombre minutes pour
une heure de trajet

75%

of the french population uses individual cars for trips of less than 8km (5km in cities)

INSEE 2014

Traffic congestion

Source: tomtom.com/congestionindex

Context of modern mobility

Today transport innovation is mainly focused on energy efficiency and personal car...

- Excessive energy demand
- High dependency on oil
- High CO2/km
- Noxious emissions
- High usage of public space
- BEVs will increase imported emissions

...But is personal car our only option ?

Transport contribution to national CO2 emissions

Source: AEE 2018 / HCC report 2019

Context of modern mobility

A holistic view on the mobility problem

- 01 Context of modern mobility
- 02 Mitigation options**
- 03 Vision, ambition and solutions
- 04 CleanMob under the hood
- 05 Conclusion

Mitigation options

Mitigation options

Do not put all our eggs in the same basket

Worse Neutral Improved

Scenarios	 ENERGY	 CO₂	 TRAFFIC CONGESTION	 NATURAL RESOURCES	 LOCAL POLLUTION	 HEALTH
Business as usual (Fossil fuels, individual car)	-	-	-	-	-	-

Mitigation options

Do not put all our eggs in the same basket

Worse Neutral Improved

Scenarios	 ENERGY	 CO ₂	 TRAFFIC CONGESTION	 NATURAL RESOURCES	 LOCAL POLLUTION	 HEALTH
Business as usual (Fossil fuels, individual car)	-	-	-	-	-	-
Fossil free fuels (Bio-fuels, E-fuels,...)	-	+	-	=	-	-

Mitigation options

Do not put all our eggs in the same basket

Worse Neutral Improved

Scenarios	 ENERGY	 CO ₂	 TRAFFIC CONGESTION	 NATURAL RESOURCES	 LOCAL POLLUTION	 HEALTH
Business as usual (Fossil fuels, individual car)	-	-	-	-	-	-
Fossil free fuels (Bio-fuels, E-fuels,...)	-	+	-	=	-	-
Vehicle technologies (EVs, Hybrids,...)	=	+	-	-	=	=

Mitigation options

Do not put all our eggs in the same basket

Worse Neutral Improved

Scenarios	ENERGY	CO ₂	TRAFFIC CONGESTION	NATURAL RESOURCES	LOCAL POLLUTION	HEALTH
Business as usual (Fossil fuels, individual car)	-	-	-	-	-	-
Fossil free fuels (Bio-fuels, E-fuels, ...)	-	+	-	=	-	-
Vehicle technologies (EVs, Hybrids, ...)	=	+	-	-	=	=
Modal shifts (Public transport, micro and shared mobility, ...)	+	+	+	=	+	+

- 01 Context of modern mobility
- 02 Mitigation options
- 03 Vision, ambition and solutions**
- 04 CleanMob under the hood
- 05 Conclusion

Vision, ambition & solutions

Vision, ambition and solutions

Our vision

Energy sobriety is our best leverage for a successful energy transition

Resilient economy

Less sensitivity to strategic resources

Values CO2 reduction

Vision, ambition and solutions

Our mission

*Promote sustainable mobility for **all employees***

***Empower** individuals*

Vision, ambition and solutions

Ambition : Key levers to success !

Behavior changes with positive psychology

For a well adopted behavior and maintained for a long time

Tech for good

Leverage the **phone sensors data**, and couple it with **AI and physics based models**

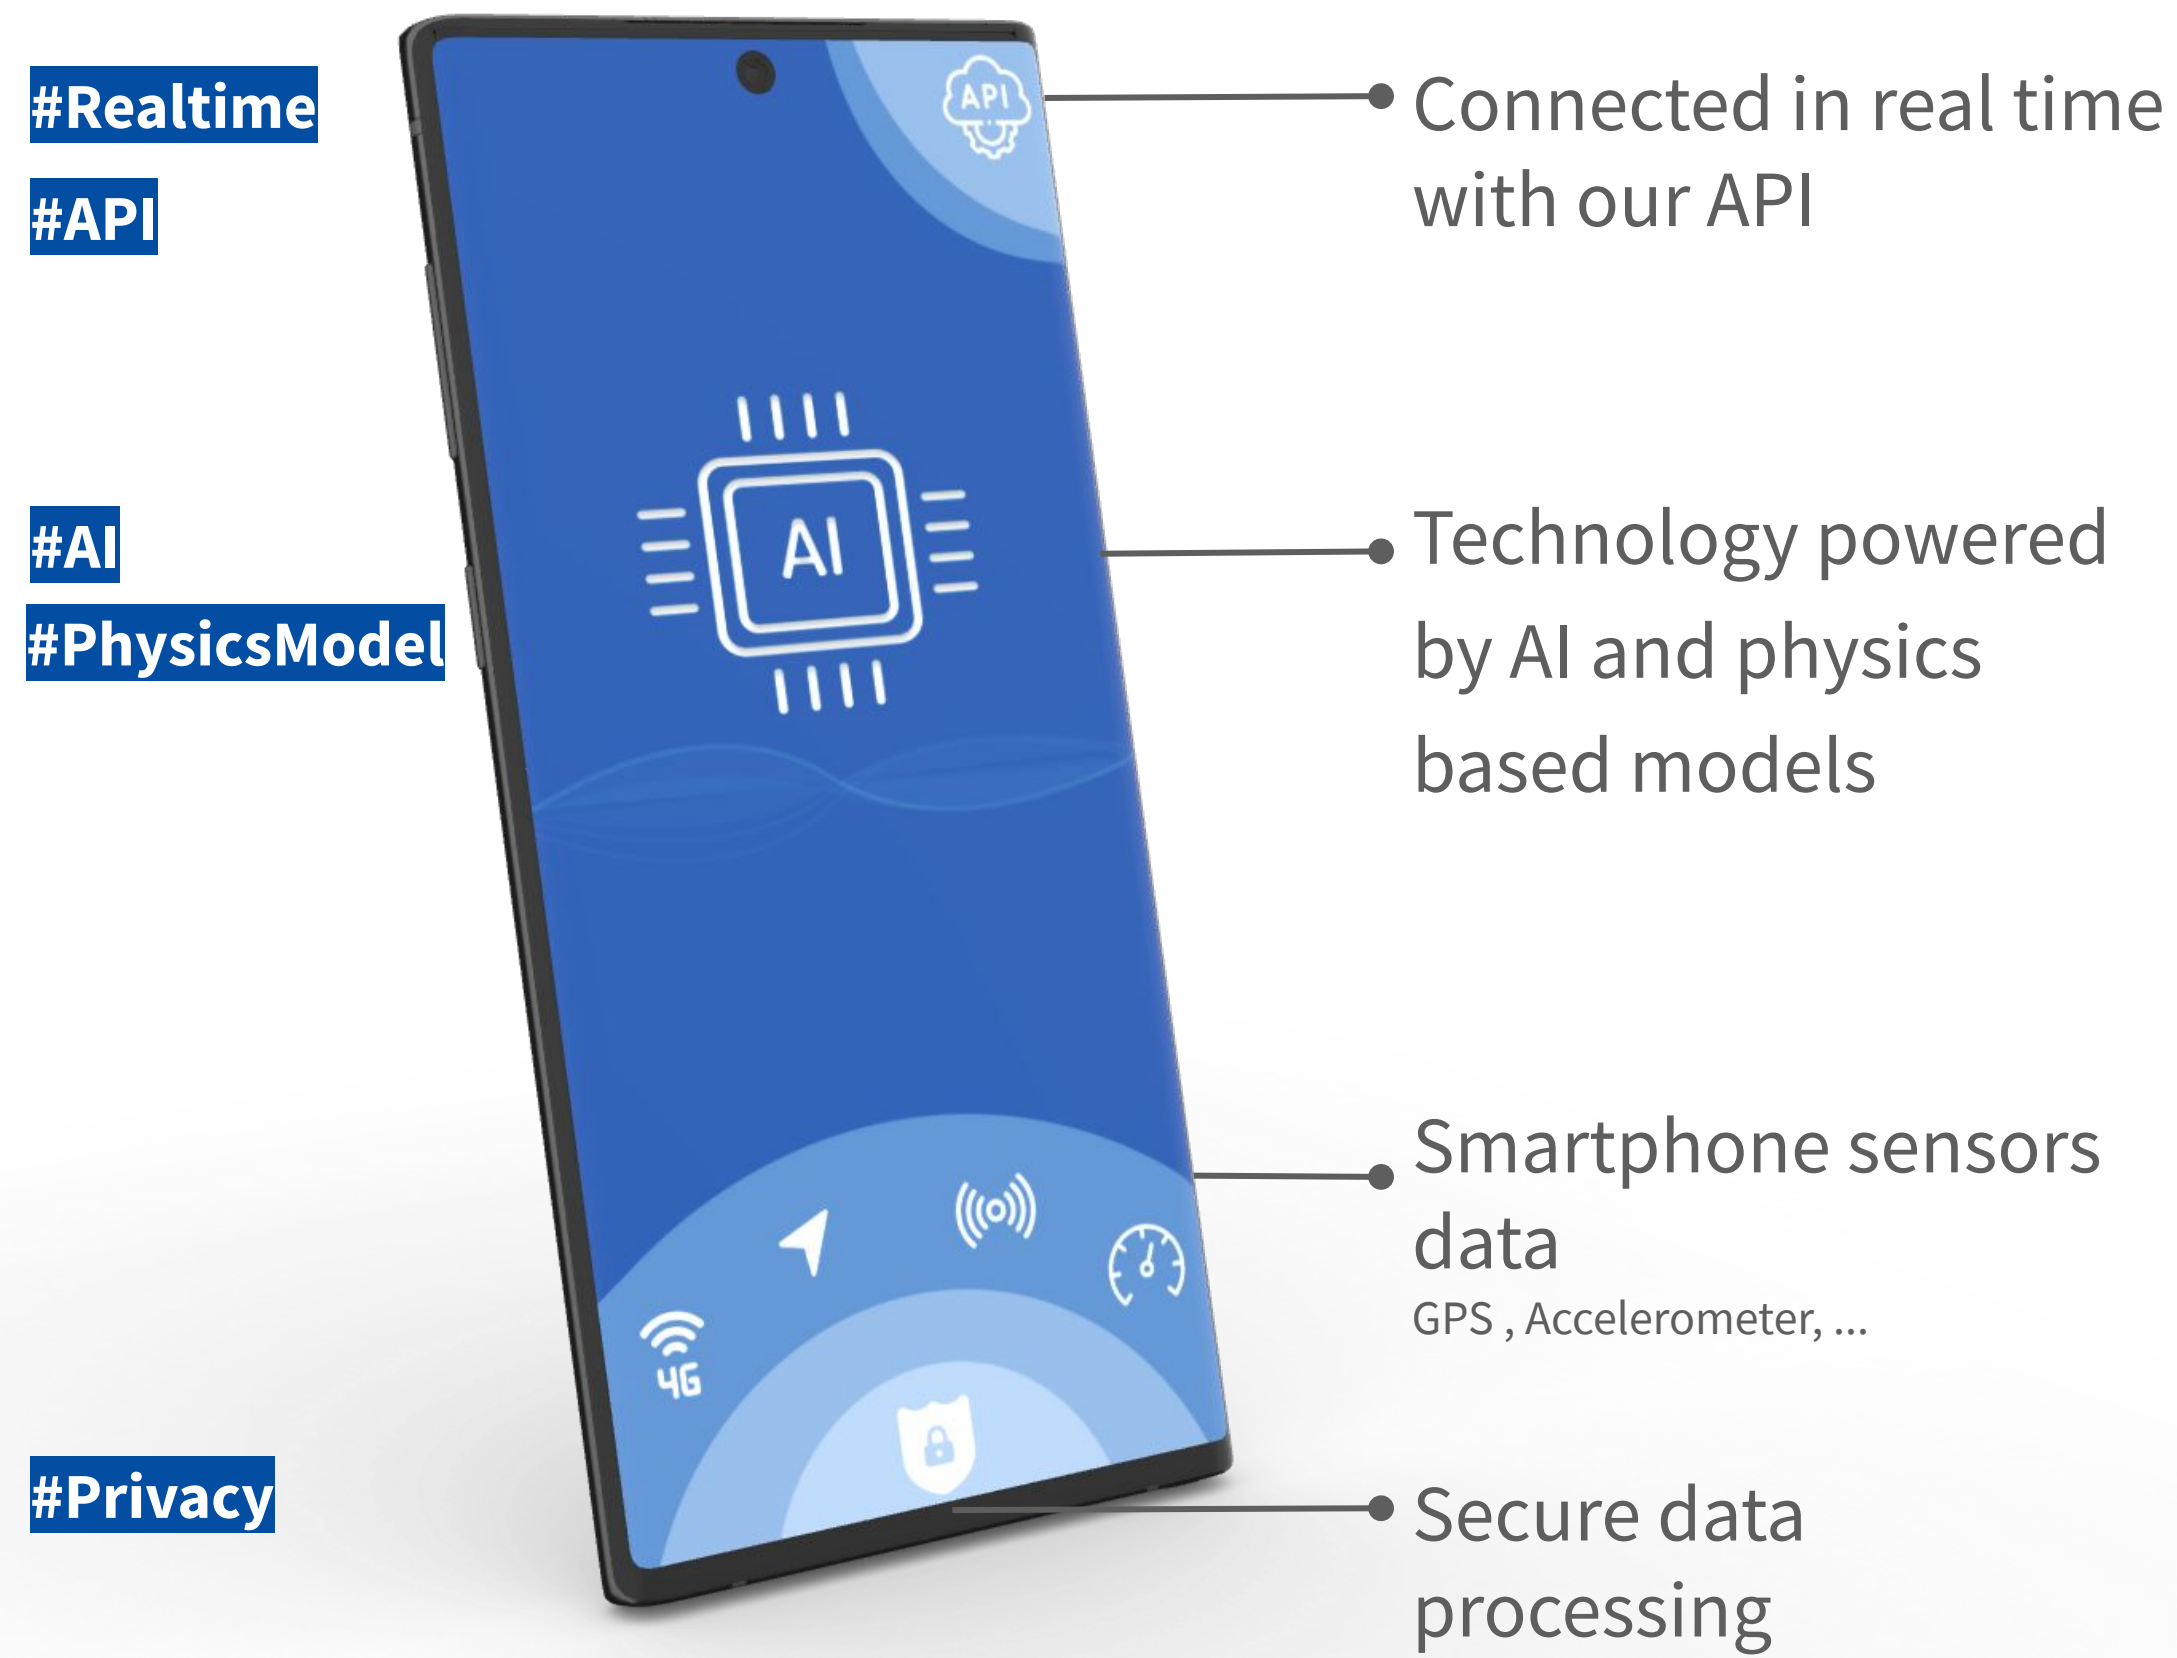

Vision, ambition and solutions

Ambition : A complex system simplified, through cleanpoints

Vision, ambition and solutions

Ambition : Tech for good

Did someone mention smartphones ?

Why a smartphone ?

- 77% of the french population have a smartphone (more than 85% for the 18 - 60 years)
Source : barometre numerique 2019 - Conseil general de l'économie
- No new device / extra sensors
- With us all the time
- Built-in sensors

#Inclusive

#Empowerment

Goal

Transform the smartphone to a CO2 virtual sensor

Vision, ambition and solutions

Cleanmob mobile App for commuter

Daily commuting

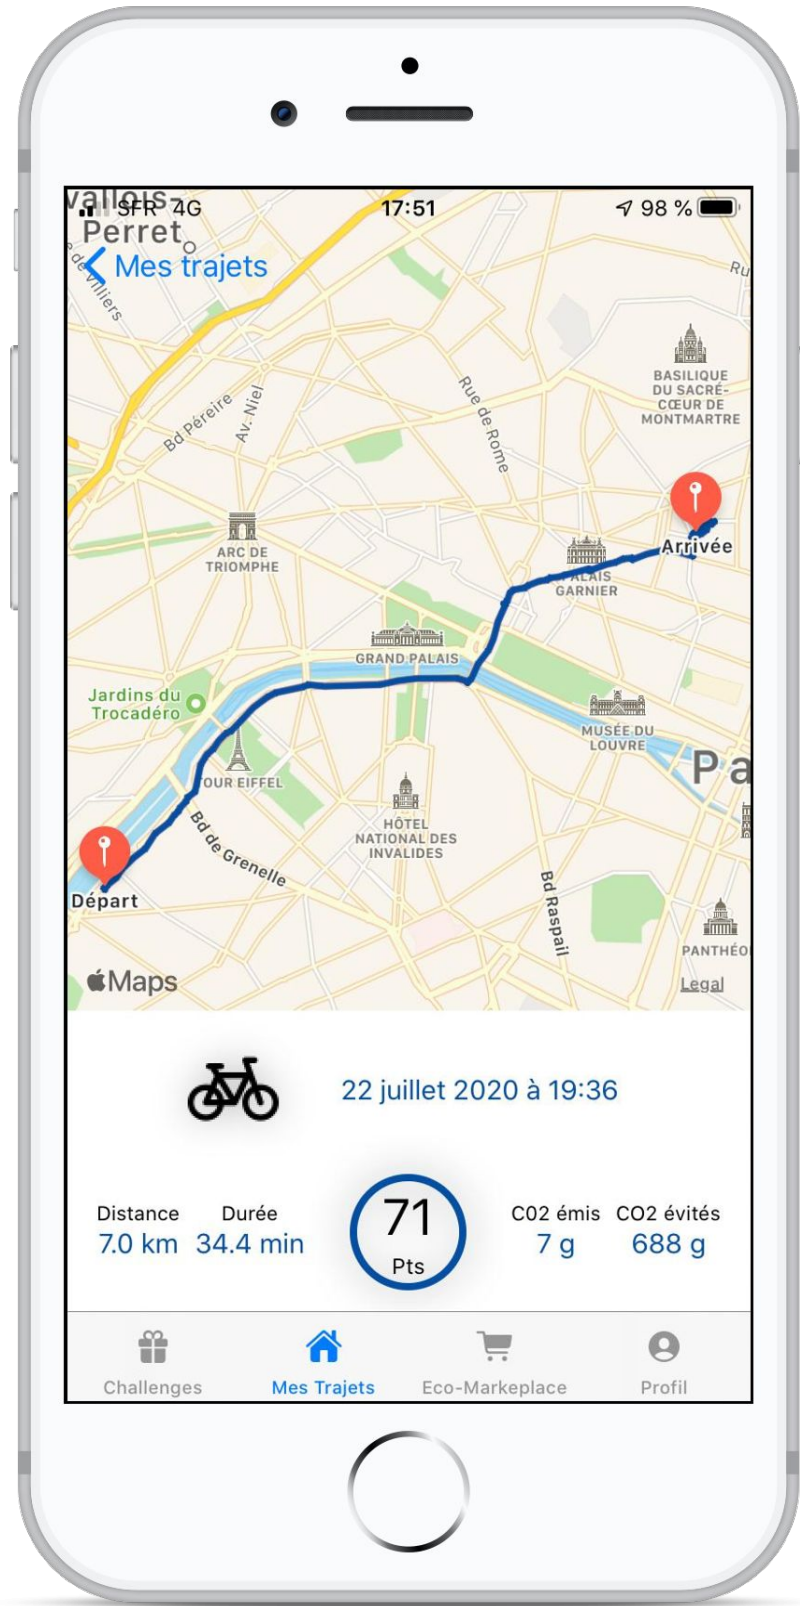

Our incentive to reduce carbon footprint

1 Install the Cleanmob App

Vision, ambition and solutions

Cleanmob mobile App for commuter

#Privacy

Geospatial data is
 commuter's property and
 will never be shared with
 the employer under any
 circumstances

Vision, ambition and solutions

Cleanmob Web App for CSR/HR manager

Steer efficiently your mobility plan

Thanks to our back office solution

Mobility Report

General Summary

Get an overview of all the transport related metrics from users within your community
Filter by geographical preferences on the selected time range.

Continent: [v] Country: [v] Region: [v] City: [v]

Select date range: [v]
Transport Mode: [v]
Trip Distance (km): [0.1 - 24,354.57]
Duration (min): [1 - 133.63]

Location Name	Number of Trips	Avg. Trip Distance (km)	Avg. Trip Duration (min)	Avg. Total Carbon (g)	Count of Unique Transport Modes
1. Haidian	1,463	1.19	7.67	32.41	5
2. Beijing	826	2.54	13.03	76.39	5
3. Jiuxianqiao	471	0.61	5.62	15.75	5
4. Fengtai	59	1.42	9.5	30.72	4
5. Tianjin	45	0.82	2.6	21.19	3
6. Qinhuangdao	20	8.26	11.53	313.87	3

1 - 48 / 48

- 05 Conclusion**

Conclusion

Conclusion

Tomorrow's mobility

Personal car is not the only option

We propose a holistic framework to optimize our mobility

You can measure accurate climate impact of your mobility using our app

We shape tomorrow's mobility today

Conclusion

Together we go further !

Beta-testing

Help us tailor our products to better fit your needs : join our beta-testing phase

Partnerships

We want to develop:

- Multi-modal routing
- Convert CleanPoints to public transport tickets
- Couple app with connected vehicles
- Many more features ...
